Sustainability-related disclosures Transparency in advertising environmental or social features

1 | 2

DJE -Mittelstand & Innovation LEI: 529900IZP4FDWUKCLF41

Summary

1. No sustainable investment target

This financial product advertises environmental or social features but does not seek sustainable investments. However, it may be that some of the investments constitute sustainable investments within the meaning of Art. 2 No. 17 of the Disclosure Regulation, although these are not targeted.

Disclosure Regulation, although these are not targeted. The fund manager follows a best-in-class approach taking into principles in order to reduce potential negative environmental and	account exclusions of companies that violate certain

☑ Exclusion criteria	■ ESG-integration
☐ Sustainable investment	☐ [andere]

6. Methods for environmental or social characteristics

2 | 2

The following methods are used for the sub-fund to check the described best-in-class approach and the listed exclusions. For the exclusions, negative lists are created using data from MSCI ESG Research LLC:

■ Exclusion criteria	Defined exclusion criteria are checked using external data fields for all investments in the portfolio (negative list).
■ ESG-integration	The fund manager follows a best-in-class approach taking into account exclusions of companies that violate certain principles for reducing potential negative environmental and social impacts.
☐ Sustainable investment	The sub-fund does not aim for a minimum quota in sustainable investments within the meaning of Art. 2 No. 17 of the Disclosure Regulation.

7. Data sources and processing

As part of the best-in-class approach, potential companies are rated using an in-house rating methodology based on external ESG data (MSCI ESG Research LLC.) as well as proprietary research results. In case of doubt, the fund manager may subject the available data to a review by a committee.

8. Limitations regarding methods and data

The methods and data are limited insofar as data are not available or cannot be supplied for all securities. In addition data for an individual issuer may not be available to a sufficient extent. Furthermore these data may be based on estimates. Securities without data are classified as "other investments", which may exceed 50% of the fund's assets. This also includes bank deposits and derivatives.

9. Investment verification (due diligence)

The sub-fund is subject to the investment process of the Fund Manager:

1/ Stock selection: The stock selection process includes analyst assessment, company interview, sustainability/ESG criteria, valuation, momentum and safety & liquidity categories. In each category a score is assigned in the range of -10 to +10, with -10 being the worst ranking and +10 being the best. All six categories are equally weighted in the standard process.

2/ Exclusions: The exclusion criteria applied reduces the potential investment universe.

10. Participation Policy

The participation policy of DJE Investment S.A. is available to investors free of charge on the website www.dje.lu under the header "Legal Notice".

11. Determined reference value

A reference value has not been determined for the sub-fund to determine whether this financial product is aligned with the advertised environmental and/or social characteristics.

Detailed information can be found in the overall document "Sustainability-related disclosures Transparency in the application of environmental or social features", which is published at https://www.dje.de/transparenz-bei-dje-mittelstand-und-innovation.
